ARTIST PROFILE

A graphic design graduate, Tau Fei has over 20 years of extensive work experience in advertising agencies and design consultant firms. He is the co-founder of Here and There Creatives, and a guest lecturer at one of the leading design schools in Malaysia.

He founded Artsowers (2008) and co-founded Trilogue (2012), both aim to foster a conducive artistic community. He is also a co-organizer, curator, and featured artist both in Malaysia and oversea exhibitions. His works have garnered media attention; being featured on Yunlin, Taiwan State news, The Star Newspaper, Rhema Radio, Christianity Malaysia Online News, and also been published in international design books.

ARTIST STATEMENT

Tau Fei's work is bold and provocative: there is nothing neutral nor commercial in his contemporary designs. He evokes an unwavering stand. A deep belief. An emotion. His art form is unashamedly Christian, and conveys a worldview against a cultural backdrop which shows through, and evokes a response. Not just to the beauty and creativity of the art piece, but also heightens visual acumen, challenging the art reader as to the truth of his worldview and beliefs. The images he creates constantly communicate, and spark conversation.

Tau Fei's work exudes one major theme – one that questions meaning and purpose. And predetermined notions. He ably relays the minor theme of sin and despair, such that both combined carry a beauty that shows God's truth as if pearls woven in a necklace.
